## AULIMP Turns 60!

This month marks the 60th anniversary of the **Air University Library Index to Military Periodicals (AULIMP)**. Begun in 1949, the purpose was to serve the educational and research programs of Air University by providing indexing for 23 military, scientific, and technical journals not readily available in commercial in-

dexes.

Today the **AULIMP** has grown into a unique aggregation of 81 journals, including 15 English language journals published outside the US and speeches of high-ranking officials in DoD and the Air Force. Featured within the index are articles, book reviews, and review essays focusing on an

array of subjects including military life, roles and missions of the US armed forces, and geopolitical trends.

Electronic access is now available for all editions from the 1987 **AULIMP** to the present. An ongoing retrospective project will ensure that the complete index will eventually be available online
